My Dear M<sup>r</sup> Murray

When you  
asked about  
appendices I  
forgot my ob<sup>ns</sup>  
calculated by  
Maclear. Admiral  
Smythe's son in law  
[0002]

has very promptly  
undertaken the  
editorship and  
as he has found  
out a new way  
of correcting  
Lunars and says  
Maclears work  
is admirable  
I think it will  
lend interest to  
the book among the  
[0003]

scientific. Printed  
in small type  
I suppose it will  
not occupy  
much space  
Captain Toynbee  
will perhaps  
need a few  
Nautical Almanacs  
from you. I am  
at Tete in correction  
[of slips] will finish all  
except the set up  
sheets  
[0004]

on Wednesday. I go  
to Dublin on Thursday  
Did you ever get  
an opinion on  
the grammar  
perhaps the observations  
will be a better  
appendix than it  
M<sup>r</sup> Rae, Common  
wealth newspaper  
wants an early  
copy for friendly  
review. I said  
I would send the order  
[0005]  
to you He is 37  
Jamaica St. Glasgow  
If you send  
a copy to the  
Editor of the  
Edinburgh  
pray let it be  
one in which  
an error in  
page 96 is  
corrected. He  
has printed some  
[0006]  
sheets correctly.  
I would like to  
give Captain  
Need & D<sup>r</sup>  
Smith a copy  
each for  
their kindness  
in giving the  
drawings -  
I sent off this  
morning page 544 Press  
[0007]  
and the last bundle  
of slips but two

If you ever  
were afraid  
of my not  
giving you  
bulk you  
are not so  
now for I

have an index

I am &c
