The letter marked

No. 1. is a copy from memory chiefly of one I sent under date of August last, which, with a map of the country travelled over, I have lately heard, was lost in the destruction of the 'Forerunner' off Madeira. I

had the fever so frequently after leaving

Cassangé, that I could only take

latitudes, inserting them and my route in pencil, and I promised to send a better map of Angola back from Cassangé on my return. This I shall do from the last point to which the postal arrangements extend. I have been detained some time here reproducing the letters lost in the 'Forerunner;' and and I leave for Cassangé tomorrow morning.

I naturally feel some little regret at the loss of my Map, for, believing it safe in your hands, I had been rather free in giving away latitudes, longitudes, and sketches of the country, some of which have been copied and sent to other parts, and I have some Ambition, as I am the only one who ever made astronomical observations in this part of the world, that my own Country

should have the preference At present I give the following list:-
